

International, Multidisciplinary Academic Conference GV 2016 - Call for papers

Online conference for students and young researchers

Full paper Submission deadline: **March 18, 2016**

Conference dates: **April 18 – 22, 2016**

*It is our pleasure to announce this call for papers for the next year of GV (**Global Virtual Conference**) - scientific conference. This event invites authors already for its 4th edition. The specific of this conference is: it runs fully online, from paper submission, including reviewing, conference discussion and post conference processing. The submission deadline is set on **March 18, 2016**. The conference starts on **April 18, 2016**. We invite both submissions and participants.*

Full papers submission requirements

We welcome any research approach or type of paper including conceptual, empirical and critical literature reviews.

English is the official conference language – all articles have to be written in formal **English**.

All papers will be referred in double tier approval process: single-blind peer-review and formal check.

Submitted manuscripts should have maximally 6 pages using **conference template**.

However, we expect high standards of scholarship within the papers in terms of establishing the theoretical context, explaining the methods of inquiry, and reporting results that may aid other researchers.

All accepted papers will be published in online archive, available under Open Access policy and they will be assigned with DOI.

All papers need to be submitted via conference **management system** (you need to be signed in).

The conference fee for each paper is 95 Eur. Members of Reviewers Committee or authors from co-organizing institutions have reduced fee: 70 Eur.

To efficiently submit your paper, please follow these steps:

- Register at the **www.gv-conference.com**.
 - Once you are signed in, select “Submit Manuscript” and then click “Add new paper to the conference”. First, include all the title and authors. Then, provide the abstract, your address (for invoice), email do not forget to upload the doc/docx file (your article).
 - Your paper will be stored in the system and passed on to the relevant reviewer for consideration.
 - If the evaluation is successful, you will receive an email notifying you and giving you details of further steps.
- Please forward this information to your colleagues and
